In the heart of Emilia, near Parma, MUTTI has been in business since 1899, applying to tomato processing all the passion and innovation needed to deliver over 100 years of taste to Italian tables. MUTTI has a past rich in history, innovation and quality. Inventors of tomato concentrate in tubes and chopped tomato pulp, for which the company still holds the productive secret.

All MUTTI products are guaranteed to be made with 100% Italian tomatoes and it is the only brand company that deals solely in tomatoes.

MUTTI is Tomatoes, our only passion

PELATI - PEELED PEAR

MUTTI peeled pear tomatoes are top quality products because they are juicy and firm, skinless and immersed in a flavorsome thick juice. They are processed and packed on the same day as harvesting, preserving the genuineness and freshness of newly picked tomatoes all year long.

6/ 3 kg 100270

POMODORINI - CHERRY TOMATOES

Long known for the extreme sweetness and the intense and fragrant flavor that comes from ripening under the warm sun of Southern Italy, MUTTI Cherry Tomatoes are carefully selected and harvested by hand with the utmost care to offer the freshness and intense flavor of just-picked tomatoes all year round.

12/ 400 gr 100810

POLPA - CHOPPED

MUTTI Tomato Pulp is a product for those who want to rediscover the rich, intense flavor of a not completely processed tomato which perfectly conserves its organoleptic characteristics. The tomatoes used are exclusively Italian, ripened by the warm Mediterranean sun, picked and processed in the same day to maintain its freshness, color and aroma. The consistent size of the pieces permits the tomato to evenly distribute its flavor over the food. It is excellent when used in cooking, but also great for making bruschetta and other delicacies.

12/ 500 gr 102420

PASSATA - PUREE

Tomato Puree is one of the most traditional ingredients of the Mediterranean cuisine to which the MUTTI family, with their experience and passion for the transformation of a simple tomato, has given an absolutely inimitable flavor and consistency. The rich density, superior to all other, the absence of skin and seeds, the choice of only finest quality Italian tomatoes make it unique. Its decisive aroma, intense red color, so creamy and velvety makes the best possible base for any pasta or second course.

LATINI

PASTIFICIO LATINI

CLASSICA

The **Classica** Line, is produced from four to six varieties of durum wheat. The choice depends on how well the crop is. In its dry state, the pasta has a protein value of about 15 percents. It maintains a straw yellow color during cooking, emerging with firm texture, decisive and persistent flavor.

SENATORE CAPPELLI

The **Senatore Cappelli** Pasta Line is the world's first single variety durum wheat Pasta. In its dry state, the pasta has a protein value of about 17 percent. The pasta retains its ash blonde color when cooked giving off a spicy fragrance reminiscent of freshly baked bread from a wood-fired oven.

FARRO

Farro is an unhybridized form of wheat, which has been grown for centuries in Europe. Farro is packed with vitamins and minerals, as well as oils which enhance its fibrous properties. This pasta is the only semi-whole grain pasta produced in the classic formats of the Italian gastronomic tradition. The Farro line is rich in fiber (7-8%), yet light and easily digestible.

IL VECCHIO PASTIFICIO di Gragnano

Making pasta in Gragnano is ancient form of art, that involves history, culture, patience, secrets and traditions. To be born and raised in Gragnano means to be surrounded by the exalting taste and scent of the durum wheat semolina and from the pasta that comes from it. In 1976, Mario Moccia bought a famous pasta factory and devoted all his time and efforts to producing exceptional quality artisanal pasta packed in unique, refined, elegant and catchy packaging that certainly doesn't go unnoticed.

PASTIFICIO I CAGLIARITANI

I Cagliaritani located on the island of **Sardinia** and specializes in the production of typical Sardinian pasta offering a wide range of genuine and healthy products. These typical Sardinian products, like Malloreddus and Fregola Sarda to name a few, although very popular local products, are great ideas for consumers and restaurateurs with the desire to create original and unique food plates. In the production of their pastas only natural ingredients are used with no preservatives or artificial coloring following strict traditional methods and use of modern machinery.

GALVANINA Mineral Water

Galvanina The Ancient Roman Spring.

Historically, Galvanina is one of Italy's oldest mineral water springs, "Paradiso" at San Lorenzo Monte was known and appreciated by the Romans as long ago as the first century BC. This source lies in a geological catchments basin that is unique in Europe, with a collection system from the solid rock. In 1901, Galvanina started selling its water in glass bottles. Galvanina has an exceptionally advanced bottling facility where modern technology and the use of only the finest glass bottles enable Galvanina Mineral Water to conserve all its precious qualities over time.
